Contents of Volume 51

No. 1

R.D. Chambers and S.K. Griffiths *(U.S.A.)*
Effects of age on the adult auditory middle latency response 1

R.L. Saint Marie, C.G. Benson, E.-M. Ostapoff and D.K. Morest *(U.S.A.)*
Glycine immunoreactive projections from the dorsal to the anteroventral cochlear nucleus 11

D. Robertson and S.A. Wilson *(Australia)*
Changes in cochlear sensitivity do not alter relative thresholds of different spontaneous rate categories of primary auditory nerve fibres 29

H. Hafner, H. Pratt, Z. Joachims, M. Feinsod and S. Blazer *(Israel)*
Development of auditory brainstem evoked potentials in newborn infants: A three-channel Lissajous' trajectory study 33

M. Hildesheimer, R. Sharon, C. Muchnik, E. Sahartov and M. Rubinstein *(Israel)*
The effect of bilateral sympathectomy on noise induced temporary threshold shift 49

M.L. Whitehead, G.K. Martin and B.L. Lonsbury-Martin *(U.S.A.)*
Effects of the crossed acoustic reflex on distortion-product otoacoustic emissions in awake rabbits 55

S.J. Norton, J.Y. Bargones and E.W Rubel *(U.S.A.)*
Development of otoacoustic emissions in gerbil: Evidence for micromechanical changes underlying development of the place code 73

J.J.J. Dirckx and W.F. Decraemer *(Belgium)*
Human tympanic membrane deformation under static pressure 93

W.F. Decraemer, J.J.J. Dirckx and W.R.J. Funnell *(Belgium, Canada)*
Shape and derived geometrical parameters of the adult, human tympanic membrane measured with a phase-shift moiré interferometer 107

P.J. Abbas and C.J. Brown *(U.S.A.)*
Electrically evoked auditory brainstem response: Growth of response with current level 123

P.J. Abbas and C.J. Brown *(U.S.A.)*
Electrically evoked auditory brainstem response: Refractory properties and strength-duration functions 139

J.A. Kaltenbach and J. Lazor *(U.S.A.)*
Tonotopic maps obtained from the surface of the dorsal cochlear nucleus of the hamster and rat 149

M. Hildesheimer, Y. Henkin, C. Muchnik, R. Anafi, E. Sahartov and M. Rubinstein *(Israel)*
Sedation effect on temporary threshold shift induced by acoustic overstimulation 161

Announcements 167

No. 2

Y. Raphael and R.A. Altschuler *(U.S.A.)*
Scar formation after drug-induced cochlear insult 173

K. Ikeda and T. Morizono *(Japan, U.S.A.)*
Ionic activities of the inner ear fluid and ionic permeabilities of the cochlear duct in endolymphatic hydrops of the guinea pig 185

W.R. Lippe *(U.S.A.)*
Reduction and recovery of neuronal size in the cochlear nucleus of the chicken following aminoglycoside intoxication 193

A.L. Nuttall, D.F. Dolan and G. Avinash *(U.S.A.)*
Laser Doppler velocimetry of basilar membrane vibration 203

M.A. Ruggero and N.C. Rich *(U.S.A.)*
Application of a commercially-manufactured Doppler-shift laser velocimeter to the measurement of basilar-membrane vibration 215

R.P. Bobbin, M. Fallon, L. Li and C.I. Berlin *(U.S.A.)*
Guinea pigs show post-natal stability in frequency mapping at the basal turn 231

A.L. Nuttall and D.F. Dolan *(U.S.A.)*
Cochlear microphonic enhancement in two tone interactions 235

M. Müller *(F.R.G.)*
Frequency representation in the rat cochlea 247

J.-L. Puel, S. Ladrech, R. Chabert, R. Pujol and M. Eybalin *(France)*
Electrophysiological evidence for the presence of NMDA receptors in the guinea pig cochlea 255

S. Carlile *(U.K.)*
The auditory periphery of the ferret: Postnatal development of acoustic properties 265

K.J. Rennie and J.F. Ashmore *(U.K.)*
Ionic currents in isolated vestibular hair cells from the guinea-pig crista ampullaris 279

M.L. Whitehead, B.L. Lonsbury-Martin and G.K. Martin *(U.S.A.)*
Slow variation of the amplitude of acoustic distortion at f_2-f_1 in awake rabbits 293

R.L. Seaman *(U.S.A.)*
Method to record evoked potentials from the frog eighth nerve 301
